Clears, Opaques, Specialties
- **RIGID PVC BLENDS**
- **CUSTOM GRINDING**
- **CUSTOM REPROCESSING**

CCC Plastics manufactures and markets **customized color and additive concentrates and compounds in polyolefin, polystyrene and polyvinyl chloride products** where unique technical solutions are required. Our color and additive masterbatches can be used in virtually all major plastics processes such as blown and cast films, extrusion coating, wire and cable, pipe and conduit, blown and injection molding to mention a few.

Technical Excellence

CCC Plastics offers complete color matching service and custom formulation development. Our technical team is continually engaged in the development of innovative solutions to market demands and specialty effects.

Quality Excellence

CCC Plastics is registered to ISO 9001 at all manufacturing and distribution centers. Our quality assurance program ensures comprehensive control of incoming raw materials, manufacturing process and final product. Our customers have relied on CCC Plastics for consistency of product quality.

Value-Recognized Service Excellence

Direct access to a customer service representative located within our manufacturing facility promotes ease of order receipt and quick response to custom made compounds, additives or concentrates. Our information management systems allows us to customize each customer's requirements, i.e. stock items, documentation and packaging.
